

Last Saturday, March 27, there was a historic event for American Amputee Soccer when the New England Revolution Amputee Soccer Team played against the New York Amputee Soccer Team in the first full sided exhibition of Amputee Soccer teams in US history. The game took place in New York and was organized to bring visibility to the sport. The teams played with full sides, totaling 7 per side.

"This is the only game that has happened independent of the national team. This proves that we are really developing and gaining space. In that game, we idealized another game on May 22, in Boston, to further promote the sport. We will broadcast on YouTube, and it will be a great event ", details Rafael Perdigão.

The New England Revolution team, founded by Rafael Perdigão and Nico Calabria, is actively searching additional support. The team seeks volunteers as a coach, assistant coach, referee photographer, physical therapist, sports masseuse. and any other interested volunteer.

If you want to know more or be part of the team, contact us at: [617-504-8582](tel:617-504-8582) or by e-mail: [rperdigaojr17@icloud.com](mailto:rperdigaojr17@icloud.com)

The New England Revolution Amputee Soccer team is based in Boston, MA, and is geared to all ages, abilities, genders, and is open to new fans. The team will provide all sports equipment including cleats, crutches, and other gear. As for the requirements to play field players must have one functioning leg and play on forearm crutches, while goalies must have one functioning arm and remain in the goalie box.
